Hey AJ,

Does Monday morning around 10:30am work for you? It will be with me. Senator Risser is out of town all of next week.

Terry,

Roping in Annie Early and Terry Hayden from the Pipe Trades as well. Laborers, Pipe Trades, and Operating Engineers are the main unions working in support of the bill.

Also should add that it passed the Assembly on voice vote last week and prior to that passed assembly energy and utilities unanimously.

Thanks!

Hey Terry,

Wondering if I could sit down with you and/or Senator Risser to discuss AB 426/SB 386. It's in Judiciary and Public Safety and hoping it gets a hearing soon. I've heard rumors of next week but do not know for sure.

I represent the Laborers and we very much support the bill. For some reference, I attached a press release we did a few weeks back on the bill.

Thanks,
AJ
